Flatoons LT

Flatoons LIGHT Ver 1.0

TM

Flatoons-LT- is an interactive content utilizing sensing technology and digital signage.

* It will detect a person in the front and respond an appropriate information.

* We purposely get rid of gesture and touch features from Flatoons and made it compact package for smaller spaces. Plus, it is more affordable.

EXTRA.TOUCH ①

Affordable price!

'Without gesture/touch features from original Flatoons, Flatoons-LT- allows you to communicate with digital characters with a cheaper cost. It would become simpler, meaning that it easily matches with any purposes of usage. A high quality of 3D graphics is still guaranteed!

EXTRA.TOUCH ②

Easy to set up!

'Due to the smaller version, it has more flexibility to setup any locations as long as there is signage in a smaller space. Since it is easier to configure censoring and cheaper to operate, it is highly recommended for those who test out our digital character packages for the first time.

EXTRA.TOUCH ③

Easy to customize!

Signs on a card, which a digital character holds, can be selected from 10 patterns of letters and/or pictures. It is easy to customize when, how long, how often, and what sign is shown with an area to be detected with a sensor. A character can be selected from preinstalled characters. We also can design any type of original characters by any request. Please contact us for details.
